
q.beyond ibérica – Opening of new business areas in Spain

q.beyond ibérica opens new business areas focusing on software development, SAP, and cloud services

- To meet the demand of German customers, the team is continuously expanding with local talent.
- Thies Rixen (CEO of q.beyond) and Germán Tíscar Lorenzo (CEO of WATA Factory) thank the team for their commitment and dedication during the past year.

Jerez de la Frontera, June 14, 2023

q.beyond ibérica, a Center of Excellence specializing in cloud and software development and a foreign branch of the German IT services provider q.beyond, is expanding its operations in Jerez de la Frontera. The company is opening new business units that focus on software development, SAP and cloud services. The team continues to grow with home-grown talent to meet the demands of its customers in Germany. In just one year q.beyond ibérica was created and has been growing steadily since its foundation. This Center of Excellence, born from the collaboration between WATA Factory and q.beyond, is achieving excellent results and has decided to expand its portfolio of services to offer an even wider range of expertise to its German customers.

After recent conversations between Thies Rixen (CEO of q.beyond) and Germán Tíscar Lorenzo (CEO of WATA Factory) in our country, q.beyond ibérica is expanding the functions of its Center of Excellence. In addition to continuing to offer solutions based

on cloud technologies, other services such as software development and SAP are being added.

For both managers, this expansion represents not only a milestone in the development of q.beyond, but also proof of the successful collaboration between the two companies. "We are proud of the direction our Center of Excellence is taking. The expansion of our service range is a proof to the hard work and dedication of our team," says Thies Rixen.

The opening of these new business areas represents significant growth for the q.beyond ibérica team. The company has already started hiring experts in this field to ensure the highest quality and service in its new business areas.
